MRS WRIGHT'S READ OF THE WEEK

Nadia, The Girl Who Couldn't Sit Still by Karlin Gray

Nadia Comaneci was a feisty and fearless little girl who went from climbing trees in the forests of Romania to swinging into history at the 1976 Olympic Games, where she received an unprecedented seven perfect scores in gymnastics. But as readers will see in this first-ever illustrated picture book about Nadia's journey to Olympic gold, the road from small town girl to world-class athlete was full of many imperfect moments.

FRENCH CORNER

Février est le plus court mois de l'année et le seul à compter moins de trente jours: il possède généralement 28 jours, sauf lors des années bissextiles où il en compte 29.

Meaning: February is the shortest month of the year and the only month with fewer than 30 days: it generally has 28 days except for leap years when it has 29.

Children in France begin kindergarten classes when they are six. Before the age of six, many children attend pre-schools.

Students start the school day around 8:30 and end at 4:30, but they have a 2 hour lunch break where they can go home. Most students go to a University for free when they are eighteen.
