

Dear Nursery Children and Parents,

We miss seeing you and are very excited to write to you to say 'Hello' and tell you all about the things we've been up to.

We hope that you and your families are well and that you're enjoying your time at home together. It feels like a while since we last saw you and we're thinking about you all lots!

We have been thinking back about memories from our year so far. Do you remember when we made pizza portraits? We used lots of vegetables and discussed healthy eating and what impact vegetables have on our bodies. It was such a fun activity, we remember some of you nibbling the ingredients before they made it to your pizza. It also links in with our current topic, 'The Farm.' Do you remember where our food comes from and how it gets to the supermarkets? We hope that you have enjoyed the farm themed activities in your packs and that you've been learning lots of fun, new facts about farm life. Do you remember what ingredients you used for your pizza faces? Have a go at making pizza farm animal faces with your family at home. You could even try to do it a different way, e.g. paper plates, drawing, painting, junk modelling or using natural items you find outdoors. It's completely up to you!

We would love to see photos of your creations, if you want to share them with us please send them to the school email at :

My dear nursery ,

I hope you are enjoying your time at home with your families. My family and I have been busy planting seeds. Can you guess what the plants are? They are one of my favourite fruits which I love using for salad, even though many people think they are vegetables. I only planted them a week ago, so I hope that next time I can show you how much they have grown. I wonder do you remember what a seed needs to start growing? I will be very happy to see pictures of your plants if you are growing anything at home. I hope you enjoy your home learning packs and learn something new every day! Take care, be safe and have fun!

Love from
Valentina

Hello my loves,

I hope you're all well, keeping safe and above all else, happy! I've been missing you all so much and look forward to seeing you again. It would be great to see photos of all the amazing things you've been doing at home, so please send some in.

This week, I have been keeping myself busy by reading cook books, watching cooking channels and having a go at making some very delicious dishes. I've also spent some time outdoors cycling and going for walks, I especially enjoy a stroll through my local park where I get to see the ducks and enjoy the wildlife. Our current season is Spring, have you seen any signs of spring? Be on the lookout!

Take care of yourselves, stay safe and be happy!

Lots of love and hugs, Sherese X
