

Hello Topaz!

Hello Topaz 5. I hope you are all well this week and have been keeping yourselves busy.

I am fine and been keeping myself busy at home. I don't like the chillier weather, do you? I had to wear my gloves on my walk yesterday!

I am still knitting things using up all my left over wool so as not to waste things and I have been doing a lot of reading. I hope you are keeping up with your reading too. We might see each other fairly soon, let's hope so.

Love Mrs Petty

Dear Topaz 3,

I hope you are all enjoying the sunny weather! It's a little bit chilly but if you warm yourselves up by brisk walking, running around or cycling, it's very pleasant! I have been trying to give myself and my family a daily dose of exercise, whilst discovering new places in our area. We walk our dog a lot and go for bike rides, admiring the views. We meet sheep, cows and horses grazing in the sun!

I hope you find places you haven't seen before, whilst keeping your distance from other people. Stay safe! I do hope to see you all soon!

Take care!

Mrs Clarke

Hi again, Topaz!

This week I have been focusing on creativity. I found inspiration from seeing some of my favourite illustrators experimenting with collage. I watched a video tutorial for some lovely little collage people, found 'art supplies' in my house in the form of recycled packaging, bits of material and some pencils, scissors and glue and simply had a go!

Then, when I was in school last week, I decided to share my new learning with the children who then had a go too, have a look at these pictures below to see our work!

I've recently seen some photos of your creative work, which looks amazing!

Keep creating, learning and sharing!

Oh, click [here](#) to see the video if you want to try making a little collage person too...

Miss Jones x

Hello!

I really enjoyed the bank holiday weekend; we were lucky to have such lovely weather! We celebrated VE day with a tea party at home.

This week, I had radishes in my salad that I grew from seeds. Look at the picture, what part of the plant did I eat? Did you know, they only take 6 weeks to grow!

I also had a go at the creative activity for this week (Making insects with nature) but guess what? I forgot to take a photo. Here is one of the insects that my daughter made instead.

We have had some more learning sent to us that has really cheered us up too!

Keep safe!

Love Catherine
