

ACTIVITY 20 - SPECIAL

In Libby's class, all the girls liked the new band 'Special' and, in particular, the 2 boys in the band, Stefan and Adam. Six of the girls are Stefan fans. There are four more Adam fans than Stefan fans.

How many girls are in the class?

Start by drawing a bar to represent the number of Stefan fans because you know how many of those there are. Next, underneath, you should draw another bar to represent the number of Adam fans – it will be easy to do this. Then you will be able to see how many girls there are altogether. This is the answer to the question.
