

ACTIVITY 27 - TOM'S FISHY FRIENDS

Tom is 4 and loves the fish tanks in the garden centre. He is learning to count and counts the different coloured goldfish. He can see 16 pale yellow ones, 35 bright orange ones and the rest are red.

If there are 60 fish altogether, how many are red?

HINT

Start by drawing a bar to represent all of the fish together. How many sections will the bar be divided into? Draw your bar model, filling in the information that you know.
