

**ACTIVITY 5 - REPTILES**

In Nathan's class, the children enjoyed learning about reptiles. They all painted pictures of their favourite reptiles. There are 29 children in the class – 13 painted snakes, 8 painted lizards and the rest painted crocodiles. All of the paintings were displayed around the classroom.

**How many of them were crocodiles?**

**HINT**

You will need to draw a bar to represent all of the children in the class. How many sections will the bar be divided into? Draw your bar model, filling in the information that you know.
