

**ACTIVITY 9 - BALLS IN THE PARK**

I took my 2 dogs, Lucy and Penny, to the park. At the start I had a bag full of 48 tennis balls and I threw them all but when we got home there were only 39 balls in the bag.

**How many tennis balls had the dogs left in the park?**

**HINT**

Lucy and Penny love to chase after the balls but don't always bring them back.

Can you draw bars to show how many balls were thrown and how many the dogs brought back to me? Then you should be able to see how many they left behind in the park.
